

Baby Blanket Project

The blankets made by Newman knitters for Women & Infants express the love, support and care at the heart of our Newman community.

Women & Infants multifaith chaplains, give the blankets to parents on the NICU as well as to patients on Antenatal, Oncology and Labor & Delivery units.

Patients express deep gratitude for this gift of comfort, care and prayer - in times of loss and joy, grief and blessing.

Women & Infants nurses have begun to request the blankets for patients in tender and difficult times. These blankets make such a difference!

Baby blankets for the Women and Infants Hospital in Providence can be made using soft bulky yarn on an 18" loom. The Needles & Hook group would be happy to provide instructions. Contact the Church Office at newmanucc1643@gmail.com for more information.
