Rock Project

Here are the directions!

Materials:
- Rocks - smooth and flat are best
- Acrylic outdoor paint or paint pens
- Outdoor Modge Podge
- Paint Brushes, watercups, etc.

Instructions:

1. If you would like, take a nature walk around your neighborhood and find some rocks. You can decorate any rock, but ones that are smooth are much easier. If you can't find some in nature, craft stores have them.
2. Wash the rocks. If you have rocks from the store, some will have a wax finish on them to give them a shine. Place rocks in a bowl and pour boiling water over them and let them soak for a few minutes. Once washed, let them dry.
3. Paint dry rocks. You might need to do a few coats if the paint sinks into the rock. Make sure to let each layer dry.
4. If you have Outdoor Modge Podge or another sealant, seal your masterpieces to protect them from moisture and elements if the recipient chooses to place them outdoors.
5. CLICK HERE to schedule a time to return your rocks to church. If you were unable to seal them, no worries, someone will do that for you!
