Parent-Teacher Conference

Friday, October 28 is Parent-Teacher conferences. The whole day is dedicated to touching base with each other and sharing how the 1st quarter went.

The format is simple. The link to the schedule is [Parent-Teacher Schedule](#)

You will notice the times go down the left hand side and the teacher's name across the top. Each conference lasts for 15 minutes. Find the time(s) that suit you best and write in your name. Once this slot has been taken it cannot be used again.

Please note that some teachers have restrictions and some might not be available. If you are unable to meet or need extra time with a teacher, please arrange another conference that is convenient. For families with multiple children, you will need to get on the schedule early and plan your time accordingly.
