

Getting to Plymouth... while not going crazy during road construction.

Coming from the North?

- avoid Shields St. (closed February 25-March 19 near W. Elizabeth)
- use Taft Hill Road to Prospect Road
- or use College Avenue to get to Prospect Rd. (good until they close westbound Prospect near College March 9-April 16...Shields St. should then be open)

Coming from the East?

- avoid the intersection of Prospect and College (see diagram for closures)
- come in on Horsetooth or Drake Rd. and then north on Shields St. to Prospect Rd.

Coming from the West or South?

- try to avoid the intersection of Prospect and College, and you'll be fine!
