Sermon: A Vision to Bring Hope

Last week Pastor Tim chose GPS readings about coming home. Following up on the theme of home, finding our roots can help us discern old priorities and cultural expectations, and perhaps reevaluate them in light of where we are today. This can help us either renew priorities or change them according to how God is calling us now. The scripture readings for this week are some of my favorites that help me do that. I hope we all experience the breath of renewal as we read the scriptures this week.
