

community. friendships. **small groups.**

We are not meant to be lived alone ... in isolation. God has created us each of us for a relationship with Him, and for relationships with others. Healthy relationships, encouraging friendships, and community are dynamics we need in our lives. RiverTown's Small Group environments are designed to help us find and realize these in our lives, in addition to equipping us to grow in our relationship with God.

We as a church wholeheartedly believe in doing life in community ... the right community with the right focus on God. We believe that being a part of a Small Group facilitates and increases our spiritual growth. RiverTown provides a variety of Small Group environments for you to get connected in and plugged into. We encourage you to find the right fit for you (and your family) and contact the group leader for more information.
