A FAMILY GUIDE

to preparing your child for preschool.

1. **READ** - If we were only allowed to give one piece of advice to families it would be, **"Read to your child."** Read everyday. Have books in every room, in your purse, and in the car. Read favorite books so often that you and your child have them memorized. Visit the library as often as you can.
2. **TALK** - Developing your child's **oral language skills** is a crucial part of preparing them for preschool. Turn off the movie, phone or ipad and engage your child in a discussion about the world around them. Ask questions. Talk about nature, and colors, and letters, and feelings. Put down your phones and listen when your child talks to you. Encourage your child to make eye contact and greet others with a "Hello" and a "Good Bye."
3. **PLAY** - Spend time every day on the floor **playing** with your child. Encourage pretend play and role playing. Get messy. Laugh and have fun together. Offer your child time to play by themselves, give them the opportunity to decide what to do.
4. **ENCOURAGE INDEPENDENCE** - Children who are able to take care of some of their personal needs do better at the beginning of preschool than children who rely on adults for everything. Make sure to encourage your child to try things for themselves, like putting on shoes, coats or jackets, handwashing, etc. Support your child in taking care of their own bathroom needs when they are potty training. If they ask for help try walking them through it first rather than doing it all for them. These are not glamorous, but these are important independent skills.
5. **PRACTICE** - Give your child time away from you. Practice **separating** and giving your child a little bit of space. Invite other children over for play dates and allow your child to go on short play dates as well.
