Living Water World Missions

Living Water World Missions

provides and installs water filtration systems in areas where clean drinking water is scarce or unavailable. These systems are usually installed in churches, and are used as a tool, a pathway, to evangelize the surrounding community and introduce them to the true Living Water, Jesus Christ. To date there have been over 125 systems installed, mostly in Guatemala.

If you are interested in joining an installation team, please contact Darrell Kootstra.
