**How does it work??? For a few quarters, you can win items valued at \$25-100!**

*Jane really wanted this beautiful new necklace. Its retail value was \$50 and it required 2 quarters to bid. Jane had two paddles, numbers 6 & 104, and since she REALLY wanted the necklace she put four quarters in the bowl (two quarters per paddle) and raised both. The announcer called her first number, "2." Joe had 2. He didn't bid on the necklace so he hollered out, "No bid." The announcer called the next number, "104." "Right here!" yelled Jane. So, for a \$50 item, Jane won it for mere quarters!*
