## WE HAVE ARRIVED AT THE END OF THE 2020 SCHOOL YEAR

We thank God for his love and mercy in allowing us to continue our students' education despite the pandemic, with classes continuing online and through study guides. Only about 25 students dropped out of the system because parents feared their children would become ill.

Eleventh Grade students with their projects, which were necessary to graduate.

We have arrived at the end of the school year. We thank God for his blessing in allowing us to serve these little ones. May God bless each missionary-minded donor who contributed to this ministry.

Please pray that we will be able to meet our payroll for November. Nicaraguan law requires us to pay a double salary in November.
