

# Well Baby Guidelines

We are committed to providing a safe and healthy nursery for your child. In order to accomplish this, we request you do not bring your child to nursery if ANY of the following symptoms have been present in the past 24 hours:

- Fever (99.5 or above)
- Discharge in or around the eyes
- Green or yellow runny nose (anything but clear)
- Excessive coughing
- Diarrhea/vomiting
- Questionable rash
- Any communicable disease (or exposure to), such as measles, chicken pox, COVID - 19, etc.

At check-in we will ask that parents and children wash their hands with hand sanitizer. Parents will then be asked a series of questions as shown below. If the answer to any of these questions is "yes", we cannot accept the child into care.

1. Have you or anyone in your family has been exposed to a confirmed case of COVID-19 in the past 14 days?
2. Has your child had a fever of 99.5 or above in the past 24 hours?
3. Has your child or anyone in your immediate family experienced flu like symptoms in the past 24 hours?

If your child is being treated with an antibiotic, he/she needs to have received treatment for at least 24 hours prior to coming to the nursery.

The nursery staff does not administer medication.

If you have any questions please speak to a staff member or contact the church office at 701-838-0750.
