

# Givt

## GIVE ONLINE

## Give via smartphone

Needless to say, not all of us carry cash these days. We generally pay with our bank cards, as paying with our smartphone is an increasingly available option. One can't deny or resist these developments, but it does pose a problem for those wanting to give, particularly now, when the collection at the Sunday meeting is not possible.

For this challenge we now have a solution. You can now give digitally using a smartphone. This system will be used in conjunction with existing ways of giving.

We hope you will make use of this new way of giving. Please download the Givt app and scan the QR code below. After doing so, enter your email address and start giving. You will then be prompted to complete your registration, including Gift Aid detail.

Please consider using this easy, opportunity to give. Thank you!
