

JANUARY 2021 NEWSLETTER

Mrs.B-Mrs.Joyce-Mrs.Sunshine

This Month's Activities

Our theme for the month will primarily revolve around bears. We'll be learning more numbers and start working on the alphabet. We will go at a pace that works for all the children since our focus still remains at making sure that they enjoy learning---quality vs. quantity. We will also start having the children identify their names through letter recognition as opposed to just the color and shape associated with their names on the tags (which they did such an awesome job with!).

Dates to Remember

January 11-15	Lock down drills
January 18	Martin Luther King, Jr. Day

Final Thoughts

January is an interesting month. Because of the holiday break, we might notice a little separation anxiety the first day or two (or three), but then it's over and suddenly, the kiddos are back into the routine and showing us subtle ways of growth. They truly are resilient and adaptable!

Since we are still in mask mode, please bring an extra mask with your child. There are times where their masks get wet midway through class, which can be cumbersome for them. As always, if for some reason they do not have an extra mask or have exhausted the ones you've sent, we are happy to provide them with one.
