

Survival or Security.

With shelter at home, social distancing mandates, along with fear and panic that is palpable in our country and the world...

I was wondering; if those who teach and believe that there is no God, and we came into being through evolution and natural selection, if they are questioning the theories that Darwin put forth.

If they are true to their belief system, then they should propose herd immunity and proclaim that only the strong survive and this pandemic is nature's way in the evolutionary life cycle of the Universe.

Those of us who realize that we have a Creator God and have been made in his image (Imago Dei) are not so concerned about survival, but as to how to surrender, serve and provide security to those who are fearful and worried about death. They are worried about death because they do not know their destiny.

This is a good time to share the Christian world-view about origins, meaning, purpose, morality and destiny.

Origins tell me where I came from [Imago Dei] and destiny, informs me where I am going. It is then and only then does my life which consists of meaning, morality and purpose make sense.

Scripture informs us that we are created in the image of God and sin separated us from our God. The Lord Jesus Christ died for us, rose on the third day and sits at the right hand of God the Father, so we can approach the throne of grace with confidence knowing that our eternal destiny is secured.

In His Easy Yoke,

Pastor Eric

2 Tim 1:7
