# *Report from the Board of Trustees*

---

## **FINANCIAL REPORT**

The February 2024 Financial Report for the General Operating Fund is available from the Church Office.

## *Replacement Windows - They are in place.*

The windows have been installed. The church was blessed by Connie Wester remembering the Church. Thanks to the special donation from her estate, all 83 windows (except sanctuary and attic windows) have been replaced.

BEFORE

AFTER

The Trustees would like to thank Men's Fellowship for coordinating workdays to prepare for the window replacements. Air conditioning units, blinds, and curtains had to be removed. In addition, anything within 3 feet in front of the windows also had to be moved. This meant moving bookshelves, furniture, copier, and lots and lots of storage items in various rooms and on the stage.

# *Report from the Office*

---

Please notify the church office if you would like to reserve a date in 2024 to donate flowers in memory or in honor of someone and indicate if you would like a \$60 or \$80 arrangement, as well as any flower type or color preference.

# March 10 Remember to set your clocks ahead one hour

**USHERS:** The Easter Sunrise Service will begin in front of Home Moravian Church at 6:15 AM. With that being said, I am asking those who would like to help usher to please let me know. We will have our breakfast at 4:45 AM in the Fellowship Hall, our traditional country ham, eggs, sugar cake and biscuits. This year, we may have a Joint Band and Usher Breakfast since the band is not going out early to play rounds. Let's have a good crowd to help usher to celebrate the Lord's resurrection.

Yours in Christ

Instead of asking you a question, I am asking for your help to celebrate 100 years. Each of us have special memories of church events and members who touched our lives (probably unknowingly) throughout the years. As we celebrate Ardmore Moravian Church's birthday throughout this year, I would like to use this newsletter space to share your memories. Every memory is a blessing not only to you but also to others. Please jot down your memories so they may be shared with others. I will include several in each newsletter throughout the rest of the year.

# FROM SALEM CONGREGATION

***Easter Sunrise Service – March 31, 2024 6:15 AM – Begins in front of Home Moravian Church and then proceeds to God's Acre.***

## **Easter Offering for God's Acre**

This Easter, for the 252<sup>nd</sup> year, we will hold our Easter Sunrise Service to celebrate the gift of God's promise of eternal life through the resurrection of His Son, Jesus Christ. Of course, this service will be held in God's Acre – resplendent in its array of flowers and washed by the beautiful sounds of the band. As the service ends and the sun rises over the landscape, the sense of hope that the service brings is once again felt among all those in attendance, both members and guests.

We have been blessed by the generosity of generations of Moravians who have long supported the upkeep of this special place. With costs growing every year and fees now covering less than one-fourth of the costs, the need is greater than ever. However, if every member helps by supporting God's Acre with only a few dollars per year, especially to the endowment fund, it will make a real difference in our ability to preserve God's Acre.

We ask that you prayerfully consider a donation of some amount this year so that we will always have this gift from our past generations for future generations to use and to share.

# *Belize Medical Mission Trip February 2024*

We set out with 31 volunteers this year. Specialties covered were: construction, dental, pharmacy, laboratory, medical imaging (ultrasound) , eyeglasses and translators. We had five providers, five nurses and several translators sharing both their medical specialty as well as their linguistic talents. The cabin crew of the American Airlines found out about what our group was doing while in Belize. It was heartwarming when we left the American Airlines flight from the states to have the cabin crew give us a standing ovation for our work to be done. But we had just arrived.

We spent a total of 9 days in Belize with visitations to five medical clinics where we served approximately 525 patients. The villages we visited were: ...

- 1) Santa Elena (there was an elementary school there)
- 2) Arenal (Right at the Guatemala border, a soccer field is shared with them)
- 3) Benque
- 4) Lagoon Road Baptist Church at St Margaret (Mennonites share this site)
- 5) Camolote

Sunday evening, we attended a bilingual church service at St Elena. The pastor and wife greeted us warmly with some of us being called now by name. It was a church service much like ours, with a praise band of a guitar sung by the pastor himself. We joined in with words on the overhead and learned a few new songs to boot. It is always heartwarming to sing the same songs we sing here in Ardmore. The Christian faith knows no boundaries.

The routine of the clinics is as follows. We first set up ultrasound and the dentist. Everything else flows around those two specialties because we try to 1) have electricity 2) ensure patient modesty and confidentiality 3) decrease the fear factor. For instance, dentistry plays Christian music to set the relaxed mood and the dentist and his assistant dress in comic book recognizable clothing. For example, a bat man shirt and head cover. This helps to get the children's minds off the upcoming tooth extractions. The people have very little access to dental care, so unfortunately dental can only offer this as a health treatment. Sugar cane is a part of life in the country with canes being chewed on from cradle to grave. Ultrasound is set up by first finding the darkest place in the site. We are referred to as the bats of the group. We hang around dark places to see our work. For us, electricity is an option for a few hours. One machine we have can run on battery for an hour, the other one about 3-4 hours barring transducer heating or iPad malfunction. We nick named the iPad the Lazarus. It died on us several times, but we always managed to bring it back to life after patiently waiting for it

to cool down. This year was the first time we had two sonographers available. A fellow from Kentucky named Steve White was added to the imaging crew due to post Covid changes in the heart. I brought up the ranks with the other specialties. I enjoy the challenge of using ultrasound as an adjunct to the fingers of our providers. Some of the areas I imaged were: Ob (of course), abdomen, kidneys, hernias, thyroids, carotids, musculoskeletal and breast. It was fun. My current position in a vascular lab made it simple for me to generate reports for the providers. Any discussion of findings was discussed with the main ultrasound provider Dr. Mark Burton.

After ultrasound and dentistry were set up, the pastor of the church worked with the nurses and other volunteers to set up the other areas. Reception, reception waiting with chairs, eyeglasses, provider circles with waiting chairs, pharmacy, laboratory with close proximity to the restroom or out house. Translators were available to all areas. This was particularly helpful in the village located at the Guatemala border. The Spanish they spoke was no where near the Spanish we hear in the states or taught to students in college. We were glad to have the native translators from Costa Rica, Florida and Cuba. They were experienced enough to deal with the local variations on the language so the message between patient and providers got through.

After the patients had their labs, imaging tests etc., they were brought back to their provider for discussion of the results and a pharmacy prescription. If necessary, the patients were connected to the medical system of Belize for follow up. It was quite an efficient system.

Several of our church members and women's circles have stepped forward to sponsor this trip. I wanted to thank them very much, and I look forward to going next year.

## **Blessings Flow Project: Clean Water for La Moskitia**

As 2023 came to a close, Moravians went above and beyond to make blessings overflow through the provision of clean water in La Moskitia, Honduras. Our goal was to provide five villages with water filtration systems, but your generosity blew this goal out of the water! The project is far from over, but at this point, we have raised over \$150,000 to share the blessing of safe, clean drinking water.

- **Filtration systems will be provided to over 2,500 households.**
- **We are now moving toward a goal of clean water flowing for at least a decade in every home in 10+ communities!**
- **Most importantly, health and hope will be restored in an area where 100% of families experience symptoms of waterborne illness in any given two-week period.**

In January and February, we had staff and partners on the ground in Honduras continuing the work and making plans for the future of this project. They visited the community of Pakwi to distribute filters, buckets, and medication to every family in the community in late January. During the first week of February, filters were distributed to every household, school, health center, and church in Río Plátano.

The community of Kuhrpa will receive filters during a visit that is currently scheduled for April. We will continue to share about this project as future locations are identified and filters are distributed. There are many more communities in La Moskitia and around the world without access to clean water. It is not too late to join in this effort! Learn more and donate at [www.MoravianMission.org/BlessingsFlow/](http://www.MoravianMission.org/BlessingsFlow/). Where will the blessings flow next?
