There is Strength in Togetherness

Esther at Kekeli Early Childhood Intervention Center

Success Story: Esther's Progress

Last year, Esther confidently declared, "Me zɔzɔ ge" *"I will walk."*

Today, she is turning those words into reality.

Esther's physiotherapy journey continues to demonstrate remarkable progress. Through regular therapy sessions, determination, and the dedicated support of her therapists and family, she is gaining strength, balance, and independence.

Esther's story reminds us that when children with disabilities have access to quality care they can achieve extraordinary progress.

You can help more children like Esther take their next step. Your support enables Kekeli to provide physiotherapy, early intervention, assistive devices, and family support to children with developmental disabilities who might otherwise go without these essential services. Every donation helps give a child the opportunity to build

independence, reach their potential, and create a brighter future.

Together, we can ensure that more children have the chance to say, *"I will walk"* and make those words come true.

Model Inclusive School Update

Kekeli's Model Inclusive School Project began in 2015 through a partnership between the Kekeli Foundation and Rotary Clubs in Ho (Ghana), Norwich (UK), the United States, France, Novi Sad, and Germany. Together, these partners envisioned a model school where children with and without disabilities could learn in an inclusive environment.

Through the generous support of the Australian Aid, Rotary Clubs worldwide, the E.P. Church of Ghana, Acacia Shade, One by One Foundation, Tulsi Trust Ghana, and many other organizations,
