

## Elexio Community App

In order to gain access to the Church Directory you must first have your church account setup by our office staff.

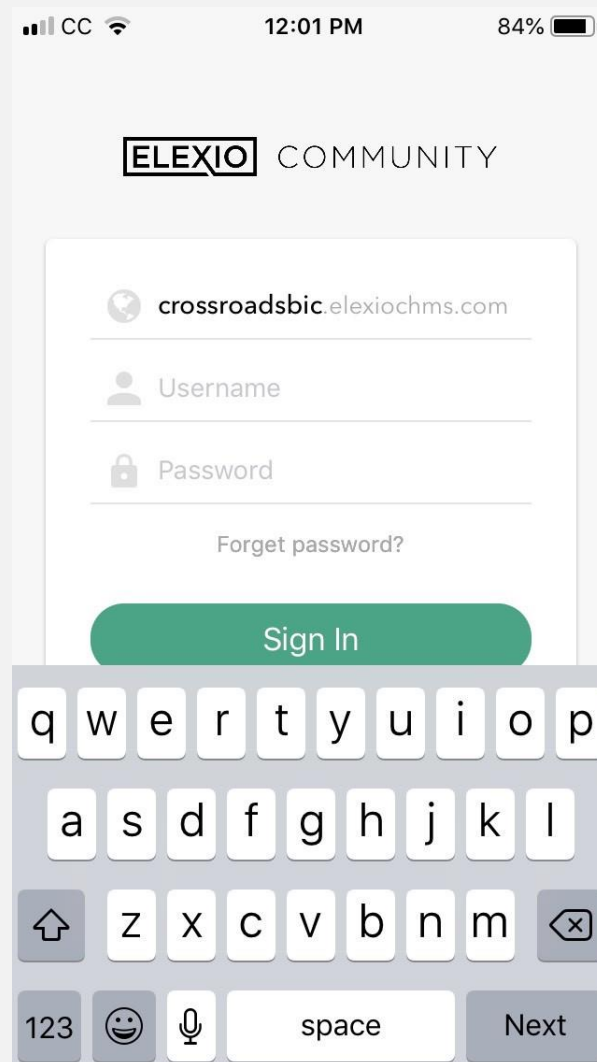

After your account is set up and you've downloaded the app you can get started.

When you open the app it will look similar to this:

You will need to replace the word domain with the name of our church:  
crossroadsbic

It should look similar to this:

Next you'll enter your username, which should be listed in the email you received along with your initial password setup. If you are not sure, it is likely either your email address or "firstname.lastname" (*mickey.mouse*)

If you used our old online directory, your password will be the same. If you've forgotten your password you can ask it to reset for you. You will get a new/temporary password sent to your email address.

If you are not sure if you've set up your account or not, fill out the form on our website - Directory/Mobile App tab. Contact the church office for more assistance.
