

Formed in 2003, Reconnect Resources offers what many call the ministry of availability. Kyle and Tisha Gillespie have spent years pouring their lives into the people God has put before them, meeting people where they are and sharing with them the love and healing power of Jesus. Through relationships they pastor many people, walking through life's ups and downs with them. They are making a difference in people's lives.

Relational Ministry

Relationships are the key to Reconnect Resources. Through relationships we help people to connect -- and often re-connect -- to Christ and his church.

Coaching/Training/Speaking

To equip others for ministry, we offer training and support for people in church and para-church ministries. This includes consulting, speaking, networking, small groups, one-on-one mentoring and spiritual formation opportunities.

Missions

We help people to connect with mission opportunities -- locally, nationally and internationally -- and to foster the spiritual fruit born from these experiences. Our primary international connections are in Eastern Europe, with our main field being Romania.

Christian Medical and Dental Associations (CMDA)

Working with medical, dental, nursing, pharmacy and other healthcare related students, we strive to enable campus leaders to effectively guide their ministries to their peers.
