

## **Governing Board Meeting**

**June 16, 2026**

### **Administration & Discipleship**

#### **Wins**

- Administration
  - A Baptism Class has been scheduled for Sunday, July 26<sup>th</sup> in preparation for our baptism service during our church picnic Sunday in August.
  - A Membership Class has been scheduled for Sundays, September 13<sup>th</sup> and 20<sup>th</sup>.

#### **Goals**

- Facility
  - We received a notice from the Hempfield Township Fire Department that we are required to have an annual fire and safety inspection. A checklist of items was included. I have walked through the building to verify anything that needs taken care of prior to the inspection. Nothing major was found during this walk-through. One emergency light does not appear to be receiving power, a few GFCI outlets need installed in the kitchen, and an emergency evacuation procedure and route maps need developed and posted. I have created a procedure and Lu is reviewing it. I am also finishing up evacuation route maps for all rooms/areas. The goal is to have them implemented and in place so that leaders can be trained prior to Move-Up Sunday (Sept. 13) and a fire drill for Children's Ministry planned for after that Sunday. Once these items are completed, the inspection will be scheduled.

#### **Challenges**

- There are no challenges at this time. Praise God, life is feeling normal again after the emotional roller coaster of a father-in-law's failing health and death, and then the busyness of excitement of a son's wedding. Life has slowed down a bit and I was able to take a week off and enjoy time away with my wife and son.

Respectfully Submitted,

Mark DiAndreth

Assistant Pastor of Administration and Discipleship
