Governing Board Meeting

November 17, 2026

Administration & Discipleship

Wins

- Administration
    - Membership
        - 7 individuals have completed all requirements for Membership. 3 additional couples have returned their Membership applications. I will be setting up meetings with the elders for those between now and the end of the year. I will once again have two elders at each meeting—after 9:30 service or after 11:00am service.
    - Facility
        - The roof is complete. Only one repair was needed during the work—leveling the roof where two building phases came together. That additional work resulted in a final invoice of approximately $149,000.00, only $4,000 more than the original quote.
        - The new furnace was installed last week in the Fellowship Hall.

Goals

- Facility
    - Safety Team: 13 radios were ordered and are ready to be delivered. The rep from Bearcom will deliver them and go over how to use them at that time. There will be a later meeting of safety team members and staff who will be using a radio to instruct them on their use as well.
- Missions
    - Get photos to Lu to create October DR Trip slide presentation for November 29th. Speakers from our trip have been identified.

Respectfully Submitted,

Mark DiAndreth
Assistant Pastor of Administration and Discipleship
