

Lead Pastor September Board/Elders Report

Win's

What an awesome month with the baptism service. It was so exciting to see so many people take the step of baptism. We continue to see new people, and that is exciting. Something is happening, and I believe we see the sparks of rivalry, and I also believe it is our job as leadership not to try to make something happen, but to blow on the embers until they become a flame, and then we start adding wood to the fire. How do we do that by committing to prayer, but witnessing, and doing hands and feet ministry every chance we get?

Challenges

There is a lot of uncertainty right now in several areas. At the same time, I can not give details on this issue right now. I am confident that God has a big plan and is going to do things we would not believe even if He told us. I ask you to pray that I will be patient, trust the process, and be open to what God is doing.

Monthly Goals

My goal for this month is to fan the flame of what God is doing. Start our new sermon series. The district conference will be before our next meeting. I am speaking at Ignition next Sunday. It is hard to believe it is 20 years old. I started this youth event to get students excited about going into their schools and proclaiming the love of Jesus, and 20 years later, it is still going strong.
