

Director of Worship Ministries
Board Report- May 2026

Wins

-Easter season was successful. It's been really exciting to see how wonderful the kid's choir has been as an encouragement to the church and multiple families say it's one of the only ways their families come visit a church. What a blessing.

-We've been continuing to make a lot of headway in our sound and a/v production teams and systems. The teams have been so gracious and adaptable and I'm incredibly proud of them.

-The Night of Worship was a huge success. The teens did a fantastic job and we had a great turnout and the diversity of the attendees was encouraging.

-We are onboarding 5 more people since Easter and 3 of them are Students.

-We are working on implementing new scheduling rhythm for nights of worship and student "takeover" Sundays and are looking forward to how that will help us be proactive and not reactive.

Ministry Challenges I'm Facing

-There isn't anything I'm currently really struggling with. Just trying to get back into a rhythm after a lot of different special events and happenings this past Spring.

Goals for the Next 30 Days

-Get certified and Install new Aviom Dante distributor. and list our old one for sale.

-Schedule Student Takeover and next Night of Worship.

-Rough Schedule/plan songs through September

-Research integrating a computer DAW system for our livestream instead of hiring someone to do it.

-Coordinate with Clint Lucas to see options for repositioning/hide speakers on the platform.
