

## Answered prayer...

*Anie, Nick, and baby Natalie*

At last year's Gala, we told you about Nick and Anie, who came to Mosaic looking for an abortion. Money was tight, and they didn't want to start all over again. Today, they are the proud parents of Natalie, "who wouldn't be here without Mosaic," Nick stated in their video testimony - you can watch below.

Their story didn't end there, though. Right before the Gala, Nick was picked up by deportation and taken to an immigration detention center several hours away from home. Anie was left alone as the sole supporter of their children. The Mosaic Team prayed fervently for Nick, and connected Anie to a local church where she could receive much needed help and support.

This has been such a difficult time for Nick and Anie, but they remained faithful, thanks to the grace of God, and the kindness of so many people. Our team stayed in contact with both of them, and continued to pray for God's intervention and favor.

We are **thrilled** to report that after nine months in detention, Nick was released the day after Father's Day and is **back home and reunited** with Anie and his girls! We wish you could have been here the day Mosaic received the news - our team could not contain itself!

Nick's legal representative told us that **Nick's involvement with Mosaic's mentoring program was instrumental in the judge's decision to release him back to his family.** She encouraged Mosaic to keep up the good work mentoring Nick.

**Thank you** for being a part of Nick and Anie's story - please keep them in your prayers as they embark on this time of readjustment and continue to raise their precious girls.
