

Turning plastic bags into hope, comfort and a good night's sleep

Bags will be crocheted into sleeping mats for those experiencing homelessness.

Our Saviour's member, Vickie Witt, has started a community project in her "What I Need" (WIN) class, and now has many students involved. They will collect plastic shopping bags, fold, cut, chain them together, wrap into balls and then crochet mats for those experiencing homelessness. Members of Our Saviour's will participate, too, by contributing plastic bags to assist Vickie and her students with the project. Thank you, Vickie, for a Winning idea!
