Caring for God's House... *... The Place Where Ministry Happens*

Bringing Light to Worship and Community

Every week, the sanctuary fills with people gathered to worship. The Re-Creation Center hosts Pre-K, pickleball, youth group, and more. These two spaces are at the heart of what happens at Bethlehem.

This part of the *Caring for God's House* appeal focuses on improving the lighting in both of them — converting the sanctuary to LED technology and upgrading the lighting throughout the Re-Creation Center.

Good lighting helps people participate. It helps musicians read music, worship leaders connect with the room, and guests feel welcome the moment they walk in. We rarely notice it when it's working well. We definitely notice when it isn't.

These upgrades will also improve energy efficiency — which means lower operating costs and more resources available for ministry.

Two of Bethlehem's most-used spaces will be brighter, more welcoming, and better equipped to serve our congregation and community for years ahead.

“Your word is a lamp to guide my feet and a light for my path.” — Psalm 119:105

Why Gathering Spaces Matter

The sanctuary and the Re-Creation Center are more than rooms. People worship here. Friendships start here. Milestones are marked here. Faith grows here. God is encountered here.

This week's featured projects:

- Sanctuary LED lighting conversion
- Re-Creation Center lighting upgrades

Better lighting won't create the ministry — people do that. But it creates the conditions where people can gather, see each other clearly, and be fully present.

“Well-lit spaces help people show up fully for what matters.”

A Prayer for Hospitality

Welcoming God, thank you for every person who walks through Bethlehem's doors. Help us create spaces that reflect your welcome. Guide us as we care for the places where people gather to worship, learn, serve, and belong. Amen.
