

**Today's Globe Offering is going to Lutheran Disaster Response for "Asia-Pacific Disaster Response"**. Over the past two months, a surge of COVID-19 cases has ravaged India. The country has officially recorded over 20 million cases and 220,000 deaths. On April 30, India reported over 400,000 new COVID-19 cases, the highest daily count in any country during the pandemic. Thousands of deaths are documented each day, yet the actual number is suspected to be much higher. Padhar Hospital, a ministry of the Evangelical Lutheran Church in Madhya Pradesh, has a ward dedicated to COVID-19 patients. Unfortunately, the hospital is currently being forced to turn away patients because it lacks the space and oxygen to support them. The work of Padhar Hospital is just one example of how our companions and faith-based partners continue to bring relief to communities during the pandemic.

For the past year, Lutheran Disaster Response has continuously supported companion churches and partners throughout India as they raise awareness about COVID-19, provide personal protective equipment and distribute sanitation supplies to vulnerable communities. Lutheran Disaster Response is helping Padhar Hospital purchase an oxygen generator for its COVID-19 ward so it can treat more patients and not have to turn away people suffering with COVID-19.
