Background & History

Public school conditions in Honduras are often poor, and in the town of Ciudad España, only go through the 9th grade. Low education and lack of jobs often leaves youth with two choices: to join a gang, or to leave the country and their family to look for work. Through our partnership with Cristo Resucitado Methodist church in Ciudad España, the Juan Wesley Methodist K-12 school was completed in 2015 to offer a quality, private, faith-based education to the community and surrounding towns. With a shortage of families able to pay the tuition and the belief that every child should have the opportunity to a quality education, a sponsorship program was borne. A university sponsorship program was added in 2017 to provide graduates the support they still lacked to pay for tuition, books and the two-hour bus commute to and from the state funded university.

Sponsor / Student Relationships

Relationships and encouragement are keys to the success of the program. Sponsors have opportunities to correspond with their student through letters and pictures that are delivered to and from the school with each team that visits. All sponsor letters go through the program coordinator, either hand delivered or via email. Return letters are translated and mailed to your home. Sponsors may also meet and interact with their student via Mission Department coordinated video chat events or on serve trips while supporting the school.

Sponsors may choose to be a “Full Supporter” and support a student both financially and with correspondence at least twice a year, or a “Silent Supporter” who believes in the value of this program but requests a Pen-Pal partner to correspond with the student.
