# Continuing Care AT LINDEN PONDS

## **At Linden Ponds, you're a person, not a patient.**

Our interdisciplinary care team creates a detailed personal profile for each resident that covers everything from favorite foods and hobbies to past habits and sleeping schedules.

This information helps us develop a customized service plan that respects and reflects the whole person: mind, body, and spirit. All team members—from housekeeping and dining to nurses and care associates—take part in ongoing staff training to embrace and demonstrate this person-centered approach to care.

## **Your satisfaction and well-being are our top priorities!**

## Our levels of care.

Linden Ponds® continuing care offers inpatient and outpatient rehabilitation, assisted care, and nursing care on the same campus—ensuring that residents and guests enjoy continuity of care.

### Rehabilitation

Our dedicated therapists are employees of Linden Ponds and are skilled at providing physical, speech, and occupational rehabilitation designed especially for seniors.

Enjoy the comfort of a private room while benefiting from specialized programs, therapeutic technologies, and equipment designed to help each guest achieve their highest level of success.

Outpatient therapy is available at Linden Ponds so you can continue your recovery after returning home (if clinically appropriate).

### Assisted Care

Assisted care is ideal for individuals who would benefit from extra help with daily activities like preparing meals, bathing, dressing, running errands, housekeeping, and managing medications. It's the perfect solution for seniors who want to maintain their maximum level of independence while also receiving quality care and support.

Every Linden Ponds assisted care room is private and can be decorated with personal furniture and belongings. Residents are free

to relax in their home or take part in the many planned activities offered in the community, including arts and crafts, gardening, day trips, and lively happy hours.

### **Nursing Care**

Nursing care residents receive the attention and respect they deserve from our team of dedicated doctors, nurses, therapists, and specialists. We provide total assistance with tasks like bathing, dressing, eating, mobility, and medication administration.

Our integrated health care model supports quality care, consistency, and attention to detail—and encourages communication between families, providers, caregivers, and nursing staff. This may help reduce unnecessary hospitalizations and promotes positivity and overall well-being.

## **Schedule a visit to learn more.**

Call **781-534-7170** for more information or to schedule a personal visit. You don't need to be a resident of Linden Ponds to take advantage of our care options.

## Quality care in a beautiful setting.

Linden Ponds is a private senior living community for adults age 62 and older. Our Hingham campus offers a full range of continuing care and independent living options to meet your changing health care needs.

Residents and guests experience personalized, quality care from a team of doctors, nurses, therapists, and dietitians who specialize in health and well-being for older adults. Community members also have access to an abundance of amenities, services, and activities throughout our lovely campus, including our on-site medical center, convenience store, bank, and ATM.
