Continuing Care AT MARIS GROVE

At Maris Grove, you're a person, not a patient.

Our interdisciplinary care team creates a detailed personal profile for each resident that covers everything from favorite foods and hobbies to past habits and sleeping schedules.

This information helps us develop a customized service plan that respects and reflects the whole person: mind, body, and spirit. All team members—from housekeeping and dining to nurses and care associates—take part in ongoing staff training to embrace and demonstrate this person-centered approach to care.

**Your satisfaction and well-being
are our top priorities!**

Our levels of care.

Maris Grove® continuing care offers inpatient and outpatient rehabilitation, personal care, memory care, and nursing care on the same campus—ensuring that residents and guests enjoy continuity of care.

Rehabilitation

Our dedicated therapists are employees of Maris Grove and are skilled at providing physical, speech, and occupational rehabilitation designed especially for seniors.

Enjoy the comfort of a private suite while benefiting from specialized programs, therapeutic technologies, and equipment designed to help each guest achieve their highest level of success.

Outpatient therapy is available at Maris Grove so you can continue your recovery after returning home (if clinically appropriate). Rehabilitation services are available to current Maris Grove residents only.

Assisted Living and Personal Care

Assisted living and personal care are ideal for individuals who would benefit from extra help with daily activities like preparing meals, bathing, dressing, running errands, housekeeping, and managing medications. It's the perfect solution for seniors who want to maintain their maximum level of independence while also receiving quality care and support.

Every Maris Grove assisted living or personal care residence is private and can be decorated with personal furniture and belongings. Residents are free to relax in their home or take part in the many planned activities offered in the community, including arts and crafts, gardening, day trips, and lively happy hours.

Memory Care

Unique programming, ongoing staff training, and a specially designed secure neighborhood set Maris Grove apart from other memory care providers. Our thoughtful, research-based approach to care promotes independence, socialization, and greater self-esteem for individuals with Alzheimer's, dementia, and other cognitive challenges.

Residents also enjoy the comfort of a private suite that can be decorated with keepsakes to reinforce memories, build familiarity, and reflect rich life experiences.

Our open neighborhood design includes many intimate areas where residents can enjoy social interactions or private leisure time. Throughout the space, carefully selected designs, colors, and symbols aid residents with orientation and way-finding.

Nursing Care

Nursing care residents receive the attention and respect they deserve from our team of dedicated doctors, nurses, therapists, and specialists. We provide total assistance with tasks like bathing, dressing, eating, mobility, and medication administration.

Our integrated health care model supports quality care, consistency, and attention to detail—and encourages communication between families, providers, caregivers, and nursing staff. This may help reduce unnecessary hospitalizations and promotes positivity and overall well-being. Nursing care is available to current Maris Grove residents only.
