

## COVID-19 IN SLOVAKIA

Hi everyone! Many of you have been kind to write and ask how we are doing in Central Europe during the Coronavirus pandemic. So, here is a short overview.

As of March 30, Slovakia has around 336 confirmed virus cases nationally and rising daily. Our city (Zilina) has no confirmed cases. The whole country is on a "stay at home" mandate except for going out for essentials. All schools and most businesses are closed. Masks are required for anyone in public.

None of us has gotten the virus so far. The boys are doing their schooling at home and online. Kim and I are doing necessary work from home.

Both Gwyneth's and Emili's universities have closed their campuses for the rest of the semester and have implemented online classes to finish out the semester. This put us in a bit of stress trying to get new living arrangements for them both.

In the end, Gwyneth decided to travel to Houston to live with Kim's sister and her family. Emili decided to live with her roommate who is from Alaska. So, they are situated at least until Summer.

Our church is meeting online for the last two Sundays. It's functional but makes you appreciate being together in person.

We are so thankful for all who pray for our protection and wellbeing. Our lives are daily in God's control and we are at peace with this reality.

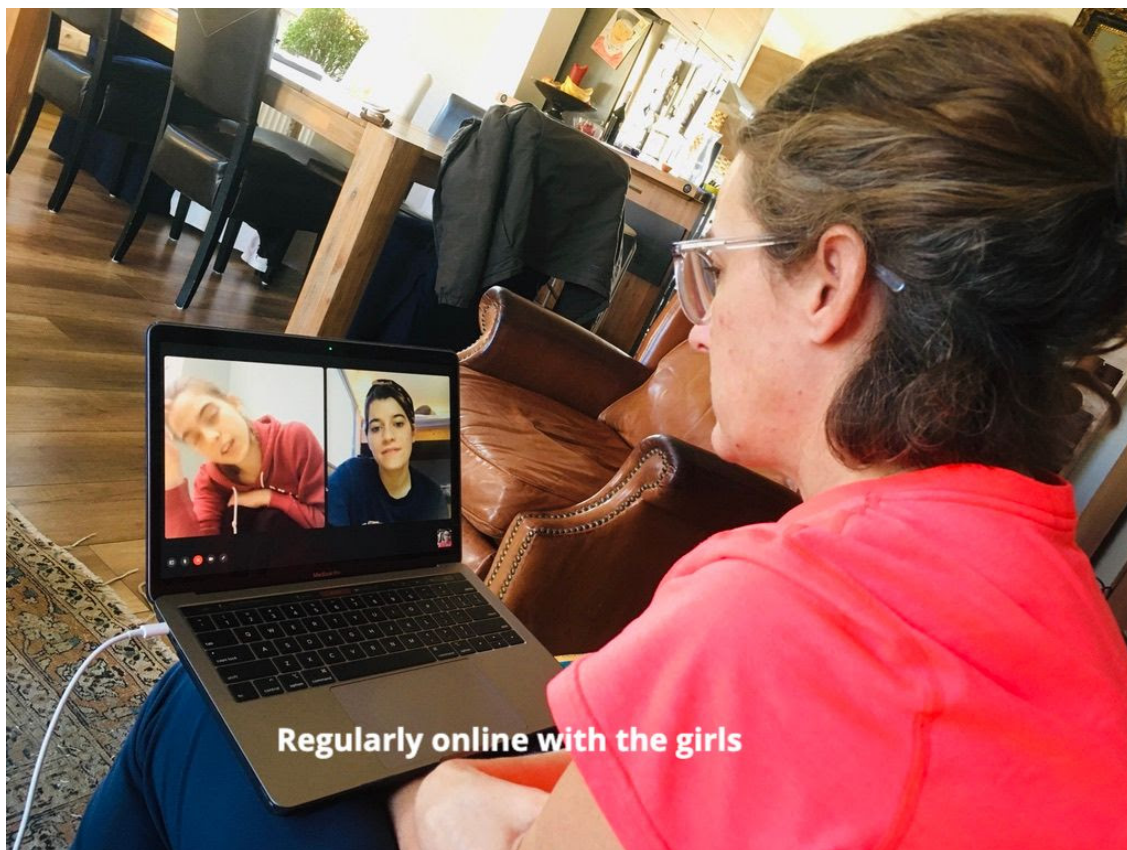

**Sam studies hard  
at home**

## Emili's adventures in Alaska
