

# XINYANGFENG FERTILIZER

Hubei Xinyangfeng Fertilizer Co., Ltd (XYF) is a large-scale public company mainly focusing on the development, production and marketing of highly concentrated phosphates & NPK fertilizers. Headquartered in Jingmen city of Hubei province, XYF has assets exceeding 8 billion RMB and employees around 6000 people. It has built 9 large production bases across China.

XYF has an annual production capacity of 7 million MT for concentrated phosphates & NPK, 150000 MT for ammonia and 2.8 million MT for sulfuric acid, and its scale is among the top 3 in China's phosphate & compound fertilizer industry. Its product line covers 5 series for regular products including MAP/DAP series, SOP-based NPK series, urea-based NPK series, tower granulated NPK series and BB series,,as well as 4 series for new-type fertilizers like water soluble series, nitrate & sulfate-based NPK series, controlled-release NPK series and organic-inorganic NPK series. Its production and sales volume for MAP and NPK has been in the leading position for many years in succession.

## NINE PRODUCTION BASES
