What is sewerage?

Your sewerage charges are for foul, surface water and highway drainage.

If you think your property does not discharge surface water into our sewers, please call us on 0844 346 1010.

Why does the sewerage usage charge include a percentage?

We work out your sewerage charges based on the amount of water you've used. But because some of the water you've used doesn't go into the sewer, we only charge you for a percentage of the water used.

Make life a little easier

We have a range of plans that help you spread your costs. Pay by:

- regular Direct Debit, or
- monthly, fortnightly or weekly using payment slips.

To start a payment plan or to find out more, call us on 0844 346 1010

SWBL259A 1474 1971

Useful information

If you have problems paying, please call us as soon as possible on 0800 083 0283. We'll be happy to set up a payment plan, so you can pay smaller amounts over time or add this debt to your new account.

Please call us on this number if you would like a free copy of our Code of Practice on Payment and Debt Recovery.

Lost your water supply or want to know what we are working on in your street?

For live information on what we are doing to restore your water supply if you have lost it; any non-emergency works we are doing in your street or local area; or events in your area, go to southwestwater.co.uk/waterlive

If you find a leak on your pipe, contact us straightaway. So long as you take action quickly, we'll do our best to help you with any bills.

To check for leaks:

- Check your water meter regularly to make sure the dial only moves when you are using water
- Look to see if your bill is more than usual.

You can download our Code of Practice on Leakage from southwestwater.co.uk/aboutus or contact us for a free copy.

We may use credit reference and fraud prevention agencies to help us make decisions on your account. If you would like to know more details go to southwestwater.co.uk or call 0844 346 1010

The Consumer Council for Water is the independent statutory body representing customers' interests. Contact them by calling 01392 428028 or Minicom 0121 625 1422, write to Ninth Floor, Renslade House, Bonhay Road, Exeter EX4 3AW.

For household customers this bill includes a reduction because of a Government Contribution amount. If you move to another home within our service area, or switch tariffs, the reduction will still apply.

For this closing account, we have checked your entitlement on a daily basis from 1 April last and calculated your reduction entitlement at 13.7p per day from this date to the date you moved out. In some cases this may mean your closing account will show you need to pay back some of the contribution because you have received too big a reduction for the number of days you occupied the property.

For more details on how the reduction is calculated go to southwestwater.co.uk/50reduction

Our water meters are very reliable, and a reading taken from one by a South West Water employee is legal proof of the amount of water used. If you think there's a problem with your meter, please call us. We can have the meter tested independently if you do not think it is accurate - but if tests show it is, you will have to pay £69 for the test (higher charges apply for larger meters).

Please do not interfere with your water meter yourself, or do anything that may affect how it works without our permission, or you could be committing an offence.

South West Water Limited Registered Office: Peninsula House, Rydon Lane, Exeter, EX2 7HR. Registered in England No 2366665. A Pennon Group Company. Please note we may monitor or record any calls.
