This trip will offer a Third World experience with a chance to grow as an individual. You'll put on a VBS for local children, participate in a food give out in a rural poor village, serving and ministering to those in need. As you travel to different villages and churches, with missionaries Wayne and Jeny Monson of Extreme Missions International, you'll gain a wider perspective of God's Kingdom and how it's impacting the world.

Florida Impact Trip

Trip dates: July 12 - 18 | Cost: \$1000

Students will help lead summer camp ministry, getting to know the kids and families in these ethnically diverse and culturally rich communities. Academic enrichment, bible study, worship and play are the cornerstones to the ministry. Church and community leaders from various parts of the city will engage our team on topics of evangelism, immigration, gospel community & biblical justice while Apex Staff leads the daily training in personal evangelism. Students will not only learn about the community they are serving in, they will be going home with training and tools that will help to be gospel influenced in their own communities.

Trip Leader: Socheat Chum, Rosemount Student Ministries Pastor (socheatc@hosannalc.org)

India Impact Trip

Trip dates: June 18-28 | Cost: \$3000

Six students will have the opportunity to come alongside Hosanna's global partners in ministry and the local churches of Aurangabad, India. Impact efforts will include working with youth in the slums at an after school program, Youth Nights at local churches and high-schooler to high-schooler cultural and spiritual exchanges with these same students, serving in pre-schools open to families with little to no means, and experiencing the first-hand stories of how God is at work in this near-totally non-Christian region of India.

Trip Leader: Nathan Lyke, Lakeville High School Pastor (nathanl@hosannalc.org)

***Prerequisites:** Due to the limited team size, long travel, and global sensitivity required for this trip, applicants must have or provide the following: prior global Impact/serving/mission experience, complete a 1250-1500 word essay reflecting on their experiences, giftings, and calling on a trip like this, and a trip leader interview with the applicant's small group leader. Team members will also be selected by a prayerful panel decision based on the above criteria and dynamics.

¹ These meetings are mandatory for all students attending a trip.

Cuba Impact Trip

While in Wyoming, you will have a blast joining in a Native American cultural experience, while blessing men, women and children with food, clothing and other household items, via outreach. Students will make lasting relationships with the Native American children at Kids Club, visit the elderly, interact with students from the local youth group on the reservation and visit a children's home. We will experience Native American food, their dances, and see how God uses you to transform lives.
