### TIMELY ART

*Arrival Time - Departure Time*, a new **public art display** along the 7 St SW C-Train station, is the brainchild of the art duo Living Lenses. Commissioned by the

Department of Transportation and the City of Calgary Public Art Program, this latest installation features nine stainless steel clocks that are calibrated to the biological age of the human heart from the womb to old age. International multimedia artists Louise Bertelsen and Po Shu Wang were inspired to create an exhibit that promotes public discussion and interaction.
