Ultimate Affiliate Keyword Research: **Dating**

I conducted this keyword research around the very hot but saturated topic of **dating**. I know a lot about this market because of my experience in it, and what I've realized is that one of the keys to penetrating this market is to go deep and find long-tail keywords that are at least 3+ words long.

I based my research on my own specialized keyword research parameters which include high traffic numbers, low page competition ratios, and whether there are marketers already bidding on these keywords via Google adwords as well as what price point they pay per click.

Here is a list of 94 highly profitable, long-tail keywords you can use in your affiliate marketing - that met my criteria. Dating is very easy to monetize with so many top selling ebooks in Clickbank.com or affiliate programs for dating sites (like eharmony and match.com). Dating sites pay well for clicks, leads, and sales.

So without further ado, here's your ultimate affiliate keyword list for the topic "dating":
