What is Lyrics2Learn?

Lyrics2Learn is an online, interactive k-5th grade reading supplement proven to increase achievement at a faster rate and allow teachers to devote more time to personalized instruction. Our unique methodology fuses music with text to maximize engagement, improve skills, and boost retention. L2L makes it quick and simple for students to complete their lessons on any device – smartphone, tablet or desktop – inside and outside the classroom, driving greater achievement via unlimited accessibility. Leveled fluency practice is followed by standard-aligned comprehension assessments. L2L is research-based and has been successfully applied across every student segment, from general education and enrichment, to tier 2 and 3 interventions.

Research Study

This study involving 986 students in a demographically diverse school district concluded that with 45-60 minutes of weekly use, L2L significantly increased achievement, engagement and motivation. Primary findings include:

- L2L students' year end CMAS/PARCC scores averaged 53 points higher than non-L2L students
- L2L students' DIBELS composite scores averaged 71 points higher than non-L2L students
- Students completing 100+ lessons experienced an average gain of 83 points over the school year compared to 50 points for non-L2L students
- 95% of teachers report their students are engaged and motivated to learn when using L2L; 100% would recommend L2L to a colleague

Greater Impact + Ease of Use + Affordability = Lyrics2Learn

Price Per Classroom	\$150	\$1000	\$800

Administrator Summary

School and District Benefits

- **Close the achievement gap:** Each student begins at his or her own instructional reading level and progresses through a research-based, standards aligned, year-long curriculum for each grade level. From kindergarten phonics and sight words, to high level questions with support from text, every k-5 student works through a grade appropriate curriculum designed to engage, motivate, and accelerate growth to proficiency or above by year end.
- **Effective for every student and teaching style:** L2L has been successfully used with every type of learner, from general ed, to enrichment, ESL and SPED. Teachers use our program in small groups, centers, guided intervention, whole group and even as homework.
- **Tools for school-wide success:** L2L provides each school with the tools needed to drive and track successful implementation and outcomes. We send automatic weekly reports to each teacher and administrator with complete details on student use, lesson progress and assessment results, with further reports as requested for parents and support personnel.
- **Connecting all Stakeholders:** Our system connects districts, schools, teachers, parents and students, aligning your learning community.
- **Easy, effective teacher buy-in and Implementation:** Teachers do not need training to use L2L. 100% percent of teachers surveyed in our research study stated they would recommend L2L to a peer.
- **Used anytime, anywhere and on all devices:** L2L makes it easy for students to complete their lessons on any device – smartphone, tablet or desktop – inside and outside the classroom, driving greater achievement via unlimited accessibility. Likewise, teachers can use any device, anywhere, for their student and classroom setup and management.

Sample School: Use Summary

Active Teachers	Active Students	Total Fluency Practice	Total Quizzes Taken	Constructed Response Questions completed
21	294	1,328 hours	10,982	288

- Fiction lessons completed: 4,393
- Non-fiction Lessons Completed: 6,589
- Purchased Accounts: 20
- Total learning Time: 2,243 hrs.
- Active Teacher Accounts: 17
- Overall adoption: 85%
