CANGGU

Koloni

Koloni describe their philosophy as “Californian cuisine, marinated in Bali”. Foodies of all tastes can devour and delight in generously-served fusion cuisine, bursting with flavour. You’ll find unique dishes made from local ingredients, including many exciting vegan and vegetarian options. Halloumi salad, rainbow fruitsalad, truffle fries... falafel in a bowl. Koloni’s earthy, jungle setting makes for a soothing ambience, demonstrating the owners’ desire to create a peaceful, charming space for the community to gather, meet, mingle, and connect. We love dropping by for lunch with friends, and we particularly enjoy their creative selection of warm drinks, including beetroot and cacao chai and turmeric latte.
