Zest

Zest is on a mission to spread the love of plant-based food. Their vegan, flourless menu comprises organic roots, shoots and fruits, that are entirely locally-sourced – with the exception of a unique nut that can only be found in Java. Chef Simon creates simple yet beautifully-crafted cuisine, using fresh, flavourful ingredients that connect people to Bali's magical heritage. Their one-of-a-kind coconut crust vegan pizza is particularly scrumptious. Balinese-inspired décor and an open space infused with natural daylight make for an ultra-chilled environment where you can experience exceptional gluten-free, sugar-free, and waste-free dining. Their unique touch of adding tiny bits of flavour-enhancing lemon peel keeps us coming back for more.
