

How to register as a family category:

1. Select the 'Family' category – your family can have 1-6 people to receive the price of \$50. (No matter how many people you choose to add the price will remain \$50)
2. Select the first participant. You will have to follow this process for each person you are registering as a family. If you select 'Add another family/friend' on this page you will not be able to add multiple people at the same time
3. Create a team. You must create a team if you register for the Family category. As you add more members to your team it is key to select that same team name to ensure you receive the \$50 price. Complete all other questions/waivers on this page.
4. Once you are on the pre-checkout screen you will see the options to register another person or proceed to check out. If you have other members you want to add to your Family click 'register another person.'
5. You will select the 'Family' category again, select the next person's name and then be sure to select the same team name to be associated to the same family.
6. Continue to 'register another person' until you have added all family members then you can click 'Proceed to Checkout'

If you have added more than 6 people under the family category you will see that another charge of \$50 will be added. If you have only registered 6 people or fewer you will see that \$50 amount.
