Green Key Eco Rating

Sandman Hotel Group is a proud participant in the Hotel Association of Canada's Green Key Eco-Rating Program. This program is designed to recognize hotels that have taken significant steps towards sustainability through participation in environmental programs, best management practices, training programs and engineering solutions which have benefited the environment and the local community. For a Four Green Key rating, each of the hotels have demonstrated national industry leadership and commitment to protecting the environment through its wide-ranging policies and practices in the areas of energy conservation, water conservation, solid waste management, community outreach, and building infrastructure, to name but a few. Sandman's commitment to sustainability and doing what we can to protect the environment for future generations has always been one of our company's core values. We believe that our guests will benefit from knowing that the hotel and banquet facility they have chosen is doing its part in trying to minimize its impact on the earth.
