ABOUT MOHUA

Generations in the making, Mohua Wines was founded in 2009 to create delicious wines from some of New Zealand's highest quality regions. The wines for the Mohua range are carefully selected from two of New Zealand's most famous grape-growing regions, Marlborough and Central Otago, both located on the South Island. Named in honor of the beautiful Mohua, one of New Zealand's rarest birds found only in some of the most remote parts of the South Island's pristine rainforests, Mohua Wines is proud to play an active role in their conservation.
