

EXCURSION RED BLEND

When it comes to growing grapes, nothing comes close to the 39th parallel – Northern California’s winemaking sweet spot – where grapes are cultivated in prime conditions. It’s where Line 39’s own roots were established and set the standard for where we grow our grapes now in the best regions across California.

TASTING NOTES

Line 39 Excursion is a proprietary Red Blend offering concentrated aromas of blackberry jam, mocha, and warm, toasted oak. The rich and structured flavors of plum, dark chocolate, and sweet vanilla culminate into a long and lingering finish that can stand up to a spicy curry or lamb gyro.
