FIRE ROAD

Marlborough's worst ever fire on Boxing Day 2000, burnt almost 15,000 acres in 3 days & threatened the wine town of Blenheim, as well as a number of vineyards and wineries. Disaster was avoided by the brave residents, of what is now known as Fireroad, who battled the blaze. The Fireroad vineyards flourish in the same hot and dry climate that was the catalyst for such a mighty blaze.

SECOND WIND

The second wind, Tonga, blows south in the summer bringing warm air that helps our grapes reach maximum ripeness in the long, cool maritime climate.
