

## SN30™ PREMIUM UAN SOLUTION

**BULK**

### GUARANTEED ANALYSIS

Nitrogen (N)	30.0
Sulfur	2.0

SN30™ delivers high-efficiency nitrogen with 2% sulphur in a stable, plant-available form. With 6.7% more nitrogen than standard 28% UAN, it supports vigorous crop growth, improves nutrient uptake, and reduces nitrogen loss for optimal yields.

### KEY BENEFITS

Delivers concentrated, plant-available nitrogen with added sulfur to support vigorous early growth, improve nutrient uptake, and maximize yield potential.

### USE TIMING

Preplant and/or in-crop applications of soil-applied nitrogen and sulfur

### FIELD TIPS

Contains 3.3lb N and 0.32lb S per gallon for more efficient field operations compared to 28% and ATS. Use in place of standard 28% UAN for soil applied nitrogen and sulphur applications.

### COMPATIBILITY

Compatible with many preplant/pre-emerge herbicides. A mixing agent may be required with herbicides containing atrazine.

### PROPERTIES

**pH:** 7.3 (calculated by weighted % from SDS for 32 and ATS)

**Density:** 1.33kg/L; 199.01 USGAL/MT

**Freezing Point (salt out):** -0.5C (calculated by weighted % from SDS)
