1000L

GUARANTEED ANALYSIS

Total Nitrogen	1.0
Available Phosphate (P2O5)	5.0
Soluble potash (K2O)	20.0
Sulfur	1.7
Boron	1.0
Zinc	0.54

KEY BENEFITS

High K for flowering, tuber initiation, and stress recovery. Includes B and Zn for root growth and stalk strength.

Potassium is needed in large quantities during the reproductive stages of most plants. The N:K ratio plays a key roll in stalk strength; B and Zn optimises root growth and cell wall rigidity. Bigger roots and stonger stalks help the plant tolerate abiotic stresses throughout the growing season.

USE TIMING

Corn: V5-Tassel
Soybeans:
 Vegetative-Flowering
Vegetables: Reproductive
Application
Rates: 1-2L per acre

FIELD TIPS

Ideal for use with fungicides for improved ROI.

COMPATIBILITY

Compatible with most pesticides. Do not mix with calcium fertilizers.

PROPERTIES

pH: 2.26
Density: 1.338 kg/L
Net Weight: 13.38 kg
Net Content: 10L
