The biggest hindrance to the miracle working power of God is our lack of faith! When we have faith in the character and nature of our Father, we unlock the miraculous grace of God. Faith is cultivated through a relationship with Father God.

“Faith, then, is birthed in a heart that responds to God’s anointed utterance of the Anointed One.” Romans 10:17 (TPT)

When we have a relationship with God, we know His nature, we understand His character, and we trust His word. Having this connection and engagement with God allows us to have faith! When we live a lifestyle of prayer, we learn to hear God’s voice, and we then have the confidence to engage.

You may be asking yourself, “How do I grow in my faith?”

Here are some great steps from Pastor Jimmy Witcher to get started and move deeper into a personal relationship with Jesus!

1. **Spend time in prayer** – Tune in to The Biblecast, Monday – Thursday mornings at 7:00am on Facebook or anywhere you listen to your Podcast. You will spend 10 minutes every morning in God’s word and in prayer. When you spend time in quiet, listening for God’s voice, you will hear Him!
2. **Pray for the Gift of Faith** – Simply ask Holy Spirit! You can pray, “God, give me the gift of faith. Holy Spirit, help me grow in my faith!”
3. **Practice** – Practice hearing God’s voice and practice engaging. The best way to grow in faith is to hear God’s words and learn how to interpret His voice! You can do this by quietly listening or even journaling the thoughts of God.

Register for our Hearing God seminar at the end of the month to learn new ways to connect and engage with the Father! You can register online at tfc.org/events. Learning to hear God’s voice, engaging with His word, and learning more about who He is will deepen your faith with our Father!
