

Bryton Marine Group Announces Acquisition of Freshwater Marina in Campbell River, BC

CAMPBELL RIVER, BC and VERNON, BC, April 16, 2025 – Bryton Marine Group, North America's largest private family-owned builder of aluminum boats, is pleased to announce the acquisition of Freshwater Marina located in Campbell River, British Columbia, effective April 16, 2025.

Freshwater Marina, an iconic marina known for its exceptional services and facilities, will now operate under the Bryton Marine Group umbrella. This acquisition aligns with Bryton Marine Group's long-term objective to build the most premium aluminum boats and compliments EagleCraft Boats' manufacturing capacity expansion strategy.

Bryton Marine Group is a diversified group of marine manufacturers specializing in aluminum boats ranging from 14ft to 150ft. Their well-known brands serve commercial, government, recreational sportfishing, and adventure boat markets in North America.

"We are very excited about this acquisition," said Byron Bolton, CEO of Bryton Marine Group. "This investment in Campbell River reinforces our commitment to the community and further aligns with our purpose to enrich local and maritime communities for future generations."

The addition of Freshwater Marina to Bryton Marine Group's portfolio will enhance the company's ability to serve both commercial and recreational markets, providing customers with access to top-tier marina services and facilities.

About Bryton Marine Group:

Bryton Marine Group is North America's largest privately owned builder of aluminum boats, serving both commercial and recreational markets. With a legacy of craftsmanship and innovation, Bryton consists of six industry-leading brands: All American Marine, BRIX Marine, Duckworth, EagleCraft, KingFisher Boats, and

Weldcraft. Each brand operates independently while sharing common principles, planning guidelines and goals. Dedicated to enriching local and maritime communities for future generations, Bryton Marine Group continues to advance boatbuilding through modern engineering, design, and manufacturing practices while at the same time embracing craftsmanship. Headquartered in Vernon, B.C., Bryton's collective brands lead the market in aluminum boat production across North America.

About Freshwater Marina:

Freshwater Marina, located in Campbell River, British Columbia, is renowned for its exceptional services and facilities. The marina offers a wide range of amenities including moorage, fuel services, and a well-stocked marine store. With a commitment to providing top-tier customer service and maintaining a pristine environment, Freshwater Marina has become a preferred destination for both local and visiting boaters. The marina's strategic location and comprehensive services make it an ideal addition to the Bryton Marine Group portfolio.

About EagleCraft Boats

Founded in 1985 in Campbell River, British Columbia, EagleCraft Boats is a premier builder of premium quality custom aluminum boats. With roots in commercial boatbuilding, EagleCraft began by crafting sport fishing lodge boats, passenger vessels, workboats, and patrol boats for the rugged waters of the West Coast. Today, EagleCraft combines this proven durability with bespoke design and craftsmanship to create custom recreational and commercial vessels. Known for exceptional seaworthiness, dependability, and customer relationships that last well beyond delivery, EagleCraft's experienced team guides customers through a fully personalized design and build process, delivering vessels tailored to their unique vision.
