FOR IMMEDIATE RELEASE

Inside Passage Yacht Sales Partners with LC8 Marine to Represent SARGO Boats in the Northeast

A partnership that blends decades of expertise in high-performance boats.

ANACORTES, WA. (April 16, 2025) – Inside Passage Yacht Sales is excited to announce a new partnership with LC8 Marine of Plymouth MA, sharing the mutual goal of representation and stewardship of SARGO Boats in the Northeastern USA.

The rugged coastlines and variable weather conditions of New England and the Northeast make SARGO boats particularly well-suited for the region's demanding waters. Engineered with precision and Finnish craftsmanship, SARGO boats are designed to navigate everything from icy Nordic waters to sun-drenched coastlines. With a range of models from 28 to 45 feet, SARGO boats combine sleek design and a proven reputation for excellence, making them an ideal choice for those seeking reliability and performance on the water.

"LC8 Marine founder Scott Dyer has a fascinating and accomplished history in the marine trades, and is highly qualified to provide information, advice, and support to SARGO customers. LC8 Marine has an excellent reputation for quality service and dedication to their clients, and we are so proud to have the opportunity to work alongside them." - Bryan Velasquez, Inside Passage Yacht Sales.

"We've always focused on discovering unique boats that truly stand out in the market, and with SARGO, we've found just that. These boats are designed with some of the best use of space I've seen recently, particularly with the galley-up design in the pilot house and the incredible space-saving innovations throughout. The founder of SARGO, who originally built cabinetry and carpentry for SWAN sailboats, has infused that same legacy of craftsmanship into these boats - attention to detail and design is evident in every inch of these incredible vessels." - Scott Dyer, Founder of LC8 Marine.
