The Wing Group Expands Global Presence with New Subsidiary in Australia

Sydney, Australia – The Wing Group is pleased to announce the establishment of its wholly owned subsidiary in Australia. This strategic expansion marks a significant milestone in the company's global growth and underscores its commitment to providing advanced solutions for security, defence, and critical marine operations. By strengthening its presence in the Southern Hemisphere, The Wing Group reaffirms its dedication to supporting critical security operations worldwide.

Leading the Australian subsidiary is **Gavin Stevens MG**, a seasoned professional with a distinguished career supporting elite military and professional operations in complex maritime environments. His expertise will play a pivotal role in expanding The Wing Group's reach and delivering specialized support to Australian, New Zealand and Asia-Pacific operations.

Stevens shared: *"I'm honoured to lead The Wing Group's Australian operations. Throughout my career, I've focused on enabling mission success in high-stakes maritime environments—values that align perfectly with The Wing Group's commitment to performance, innovation, and integrity. I look forward to supporting our current local partners, building new ones and delivering real impact on the ground."*

Gavin Stevens MG

Andrew Branagh, President of The Wing Group, emphasized the strategic importance of this expansion: *"The Southern Hemisphere is a dynamic and vital region in the global security landscape. As operational challenges evolve, it's crucial to provide localized, hands-on support to ensure mission success. With Gavin at the helm and together with our trusted distribution partners—Calgus Maritime, Stern First, and Aquaterro—we are strengthening our ability to deliver world-class solutions tailored to the unique needs of this region."*

By establishing a direct presence in Australia, The Wing Group enhances its ability to support military, governmental, and professional teams with cutting-edge equipment from Wing Inflatables and Mustang Survival, as well as localized training and operational expertise.
