Teakdecking Systems Appoints Bryan Dodd as Vice President of Deck Maintenance Products

Sarasota, FL – Teakdecking Systems (TDS), the global leader in marine decking and deck maintenance products, is pleased to announce the appointment of Bryan Dodd as Vice President of Deck Maintenance Products. Based in the U.S., Bryan will lead the company's deck maintenance products division with a focus on growth, innovation, and operational excellence across North America, while also supporting the expansion of product strategy and development efforts in Europe.

With more than 20 years of international leadership experience in manufacturing, strategy, and business development, Dodd brings a strong background in scaling operations and building high-performing teams. He most recently served as President and CEO of UNECOL Adhesives North America, where he introduced European adhesive brands to the U.S. market, securing national distribution with major retailers.

Throughout his career, Bryan has held key roles across the U.S., China, India, and Europe, leading initiatives in product innovation, supply chain optimization, and international expansion. His deep understanding of global markets and customer needs makes him uniquely equipped to support TDS's international initiatives while strengthening its U.S. operations.

"We're excited to welcome Bryan to the TDS team," said Richard Strauss, CEO of TDS. "He brings an exceptional mix of strategic thinking and practical know-how. While his primary focus will be driving growth in the U.S. deck maintenance products division, his global experience will be a valuable asset as we continue to evolve our presence in Europe."

Dodd joins TDS at a time of strategic change for the company. As of June, TDS has transitioned from a single master deck maintenance products distributor model to managing its European distribution operations directly. Operating from its Spanish facility, the company is now building a network of regional distributors to offer faster service, greater product availability, and localized support throughout the continent.

"I'm thrilled to be joining TDS during this exciting period of growth," said Dodd. "The company has built an incredible reputation in the marine industry, and I'm looking forward to contributing to the next phase, both here in the U.S. and by supporting our efforts in Europe."

Founded in 1983, TDS is an employee-owned company and the premier supplier of teak, composite and cork decking systems. With facilities in Florida and Spain, TDS provides high-quality decking, repair, and deck maintenance products including caulk, epoxy, cleaners, and adhesives available through national and global distributors. TDS continues to set the industry standard for craftsmanship and innovation.
